About Me

Driven and detail-oriented programmer with 4 years of experience in the computer science field seeking to collaborate on a team of programmers to produce great web solutions for customers.

Work Experience

Mar 2023 - Jul 2023
5 months

Java Software engineer | EPAM Systems

Studying and working on several Restful API projects in EPAM Laboratory as an Intern, where I acquired and consolidated more experience with Gradle, Git, Java EE, AWS, Spring, Angular, and CI/CD pipelines (Jenkins).

Oct 2022 - Feb 2023
5 months

Java Software engineer | Syberry

Was in charge of developing a RESTful API for processing the data of traffic accidents for machine learning model. Also, created RESTful API for Employee Management System. Acquired extensive experience and knowledge of building excellent solutions from scratch all the way to deployment on AWS, using such technologies as: Java 8, Spring Framework, Git, React.js and CI/CD pipelines (GitLab CI/CD). Improved communication skills, and thrived in a teamwork environment.

Mar 2020 - Aug 2021
1 year, 5 month

Primary Software Engineer, Co-founder | Onion agency

Designed, created, and implemented 8 web applications, working primarily as a front-end and back-end developer. Additionally responsible for marketing and sales, focusing on business advertisement space via Instagram and Facebook. Acquired strong experience in RESTful API principleas, PHP and Laravel framework. Improved skills in JavaStcript and JQuery framework.

Aug 2019 - Aug 2021
3 years

Co-founder and owner of English language academy | TeachHouse

Managed all aspects of running an English Language school. Targeted people of all ages from all Ukraine, who saw the huge value of learning English from native speakers. Starting this business from the ideation all the way through running multiple classes per week. This sole proprietorship provided me with invaluable business experience from multiple sides: entrepreneurship, marketing, sales, customer service and web development.

Education

Sep 2021 - Jul 2025
3rd year student

Software Engineer - Bachelor | National Technical University – «Kharkiv Polytechnic Institute», Ukraine | GPA: 3.75

Primary concentration in modern programming of business applications and software for mobile devices. Secondary emphasis in game development, and integration of blockchain technologies in programs.

Apr 2022 - Dec 2022
9 month

Java Software Engineer | EPAM Systems, Ukraine | GPA: 3.2

Quickly became fluent in web development, using Java Enterprise. Designed and developed a Hospital Management System as my graduation project. Acquired such skills as: Java 8 and Jakarta EE, Apache Tomcat, Git, Maven.

Feb 2022 - Apr 2022
3 month

Web developer | EPAM Systems, Ukraine | GPA: 4.0

Quickly introduced myself to Java 8.0 and development of complex business applications. Using the acquired knowledge, designed and developed application for signing up to online business meetings.

Jun 2020 - Aug 2020
3 month

Marketer and business analyst | Brand U!, Ukraine | GPA: 4.0

Introduced myself to SSM and SEO advertising for web applications. Developed, released and advertised multiple website projects for first customers. Acquired excellent experience in communication with clients and working in team.

Sep 2019 - Apr 2020 7 month	**PHP software engineer | IABS Academy, Ukraine | GPA: 4.0**
	Introduced myself to web development. Acquired excellent work experience in PHP language and creating RESTful applications. Collaborated with classmates to provide online solutions for IABS clients. This collaboration helped me to develop first 10 websites, gain new experience in business and communication with customers.
Sep 2010 - Jun 2021 11 years	**Mathematician | Nikopol Science and Mathematics Lyceum #26, Ukraine | GPA: 3.7 & GOLD medal**
	Introduced myself to web development. Acquired excellent work experience in PHP language and creating RESTful applications. Collaborated with classmates to provide online solutions for IABS clients. This collaboration helped me to develop first 10 websites, gain new experience in business and communication with customers.
